- Simple, non-complicated use

Wide Area Coverage

Diotron's GSM-PTT Service uses data on the GSM Cellular network to achieve communications. This means for a small fixed monthly cost you can have access to a national network whenever you need it.

COUNTRYWIDE
COMMUNICATION
THAT FITS IN THE
PALM OF YOUR
HAND

No investment is required to reach around the block or across the country as it is already put in place by the GSM Network Operators.

No pain of infrastructure maintenance or expensive repairs due to high-site loss or theft. By utilizing this national network we can offer a **countrywide communications tool that fits in the palm of your hand.**

AS LONG AS YOU HAVE COVERAGE,
YOU CAN COMMUNICATE

No more guessing how you would contact your personnel in another town 250km away!

Diotron
COMMUNICATIONS
keeping you safe and connected

Pricing Structure

- ▶ Purchase a device outright
- ▶ Once off Sim Card & Registration Fee
(includes remainder of the month free airtime)
- ▶ Thereafter a Fixed Monthly fee
Applicable to use much as you can (Fair use Policy applies)
- ▶ No Lock-in Contract
- ▶ Simple Debit order for monthly payment available

KEEPING IT SIMPLE

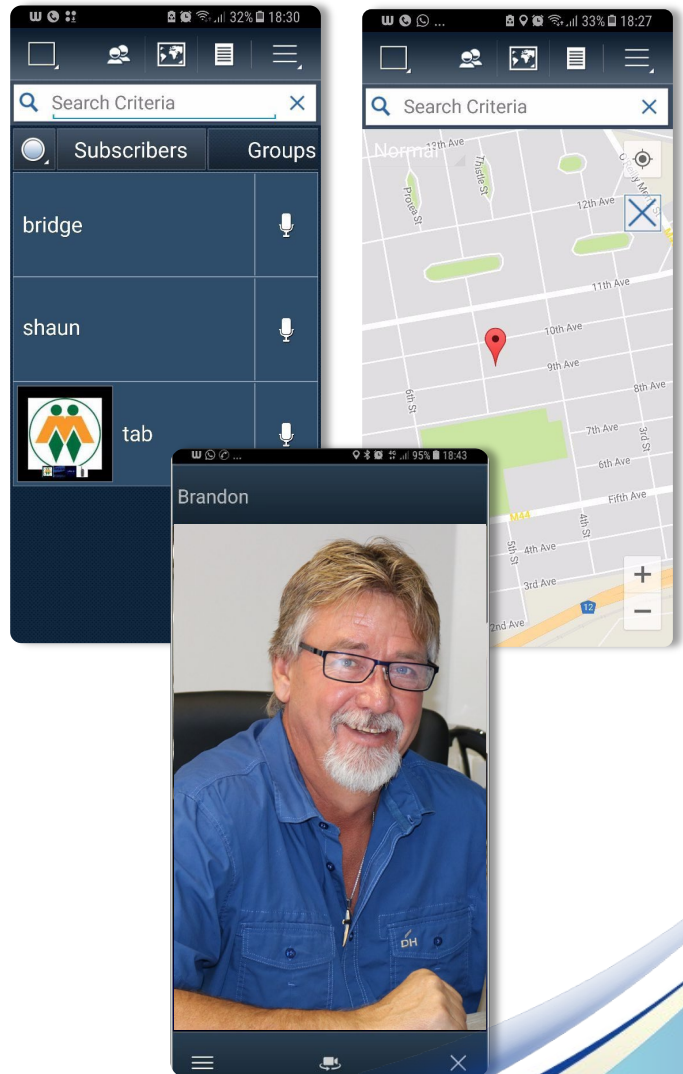

Free Android APP

Our Android App is available **free of charge** but requires an additional monthly server fee & own data usage

Features can be limited but includes:

- ▶ On-Line Users list
- ▶ Off-Line Users list
- ▶ Find on Map Locate & Track
- ▶ PTT Talk
- ▶ PTT Messaging
- ▶ PTT Calling
- ▶ PTT Video for supported devices
- ▶ Log feature with filtering
- ▶ Status

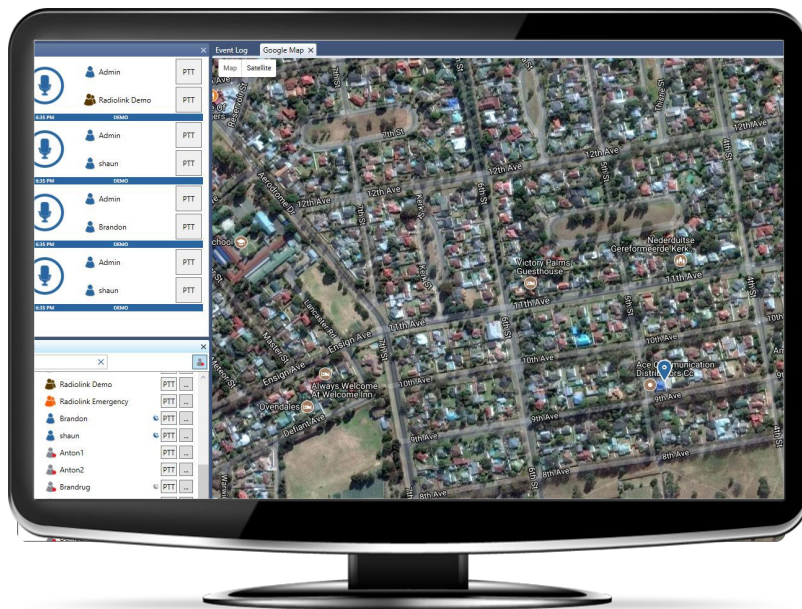

Desktop Manager

TRACK
MONITOR
MANAGE

The **Dispatch Desktop Software** is available at an additional fee and Monthly Server fee but offers **powerful features** such as **Live Track, Talk, Online Status, Logs** and many more.

Bridge your current radio network

By adding a **Radio-Gateway** we can seamlessly integrate your current radio network to your new GSM-PTT radio fleet.

Connect your current radio network be it "Licensed" or "License-Free" radios on site to your offsite control room.

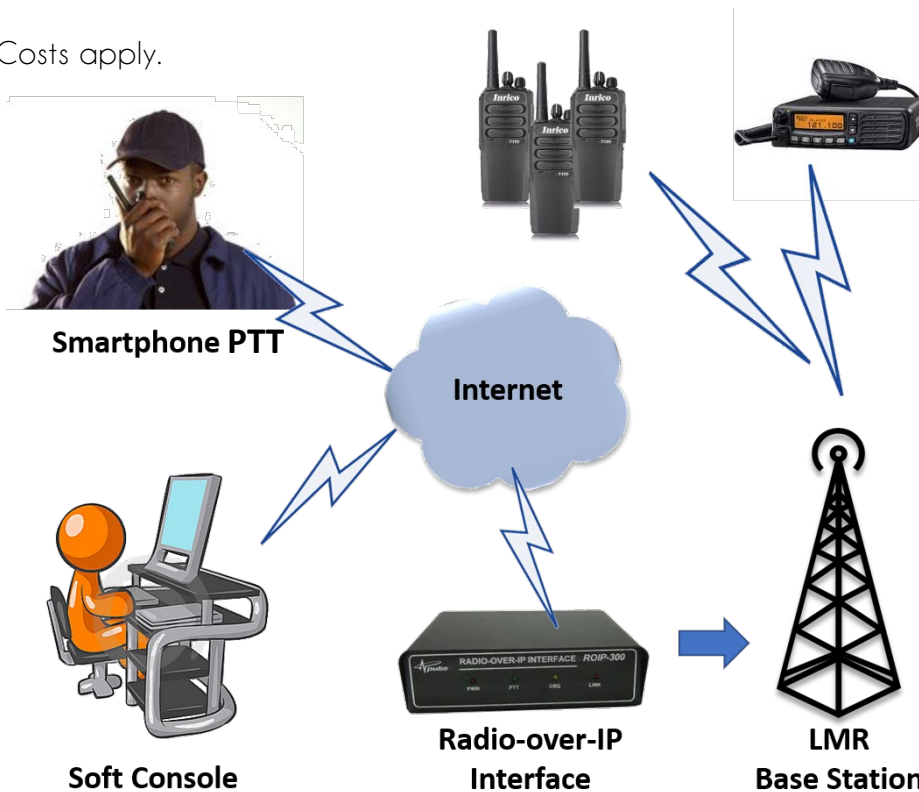

Enable managers to **monitor any situation** linked into your new network.

No more worries about what is happening on site with second hand information getting to you after an event has occurred.

Listen to your Force Live.

*Additional Costs apply.

SEAMLESS
INTEGRATION

SIMPLE EFFECTIVE COMMUNICATIONS

Two-way radio-like devices that
available that your personnel are
